

NYU'S PROPOSAL IS AN ATTEMPT TO GUT OUR UNION STRENGTH.

NYU claimed they left the League to do better by us, but they are doing worse by us with their August 28 contract proposal. They still didn't present us with a single economic proposal or respond to ours! Instead their proposals would slash our union strength by increasing their ability to use non-Union workers, and shortening our leave for illness or injury by 50 percent. They also are trying to severely curtail our ability to engage in union activity at the hospital.

We know they brought their attorney all the way from Right-to-Work North Carolina, but this is not a right-to-work state!

NYU also made the preposterous demand for a Most Favored Nation clause, meaning they would benefit if 1199 bargained an agreement that provided less than what we are able to bargain with NYU. Who do they think they are?

Is this what "doing better" looks like? It may be better for them, but it's worse for us as workers!
