

HANDS OFF OUR PENSIONS!

RN LEAGUE BARGAINING BULLETIN #1 • JUNE 14, 2018

This week, your 1199 Bargaining Committee met with League Management. Instead of responding to our proposal, they presented their own proposal of significant “modifications” to the benefit structure. These “modifications” are actually cuts, and we won’t stand for it.

Now it is up to us to focus on the work we need to do inside our chapters. We need to talk to our sisters and brothers and remind them that this fight is literally for our future.

WE HAVE EARNED OUR PENSIONS! We are UNITED in this FIGHT, and we will WIN!

“Providing quality safe care is not only of great importance to our patients, but it is what will guarantee our employment and the viability of our institutions. In this healthcare climate quality of care, and not quantity of services, is now paramount. This cannot be accomplished without our Registered Nurses. It is my hope as the bosses are watching their dollars and cents, that they realize that it only makes sense to invest in their nurses.”

Barbara Jean Moody, RN, Long Island Jewish Forest Hills

**TO WIN
THIS FIGHT
WE MUST
UNITE!**

“All our proposals were drafted with the intent to deliver high quality care to each of our patients. Our staffing proposal however is imperative in order for us to give 100% to each of our patients. We need the RNs, and ancillary staff, at the bedside to take care of our patients.”

Jane A. Genscer, RN, Good Samaritan Hospital

1199SEIU
United Healthcare Workers East
